To

**Dr. J. RAJAH**  
INDIAN MEDICAL ASSOCIATION  
Dindigul District, Tamil Nadu

Dear Sir,

We would like to draw your kind attention to the telephonic conversation by Dr. k. vijayakumar President, National IMA Regarding Young Scientists of KAP's interaction program.

Kumari arival peravai is a voluntary science group doing service in the field of Science and Technology in Kanyakumari District. Our main aim is to create scientific awareness among the school students and bring out the hidden talents in the young ones. For this we organise many programmes every year.

Every year, we organize the Young Scientist Program on a specific theme and during last year (2011 -12), was the theme, '**Energy and Environmental Challenges**'

This year we have chosen the theme '**Food and agriculture - Challenges**'. Awareness on this theme is being conveyed through various programmes like Science Exhibitions, Seminars, Scientists and Students Interactions, Science Competitions, Young Scientists Camp, Environmental Field Study etc.

For year 2012 -13, Students (50 Nos.) have already been selected as young scientists and 10 guide teachers also selected for this year programme.

These 50 students are divided in to 5 study groups. Each group is guided by a scientist, Medical Doctor, Guide Teacher and a team Coordinator who voluntarily help the students throughout the year by way of constant interactions.

As a part of this programme we wish to take our students for a **Conference on 'Food and agriculture-Challenges'** on **24/4/2013** at **IMA Dindigul**. with your eminent personalities. We would also like to have an interactive session with IMA personalities

We request you to kindly provide necessary logistics & arrangements for our 50 young scientists,10 Guide Teachers and 12 Scientists/Coordinators. (Total 72 nos.) for conducting the meeting.

We would be extremely thankful if you can the necessary arrangements in this connection. Your participation and support will enthuse the young scientists further.

#### **TENTATIVE PROGRAM**

**INDIAN MEDICAL ASSOCIATION, DINDIGUL**  
**KAP YOUNG SCIENTISTS-2013**  
**CONFERENCE ON**  
**FOOD AND AGRICULTURE- CHALLENGES**  
**24- 04- 2013**
