

REPORT OF 'MEDICAL SCIENCES' PROGRAMME
FOR
YOUNG SCIENTISTS
ON
31ST DEC 2009
AT
GOVT.MEDICAL COLLEGE ,ASARIPALLAM

S.Seetha lekshmi,

It was a fine morning. At about 9^oclock we reached Govt. medical college, Asaripallam.

We assembled at the examination hall of the medical college. The programme started at 10 AM with prayer. Nivethitha of our team invited all the guests to the stage and also gave an introduction about the programme.

First of all Mr. Velaian the organiser of KAP gave the welcome address. The first valuable speech was given by, Dr. Rathish Dy. Superintendent gave a valuable speech and wished us for a colorful future.

Dr. Sabeshan RMO in his address explained the Achievements of Ramakrishna and also said that “we should do our duty and should not accept anything from others for doing our duty”. He also said that “we can't say a person as genius or superior by his awards alone.

Dr. Josephsen gave some valuable information about health and hygiene. He explained the history of health and narrated how the knowledge of health came to this world.

Dr. Jayalal Asst. professor, gave some important information about Anesthesia and antibiotics and their disadvantages. He asked us to invent an alternate medicine for anesthesia and to become a medical scientist in the future.

Mr.Arul Prakash, Asst.professor in his speech explained us that psychology is the treatment of mind. He also said that brain is hardware and mind is a soft ware. He advised us to be bold always to face any problem in life.

Dr.Antony David, Vice Principal also wished us . The meeting ended with the vote of thanks by the Mr. Thiruvengadam, Rtd Dist Employment officer, Nagercoil.

Then we were taken to a class room where Dr. Edward Johnson gave a brief power point presentation about First Aid. We also got an opportunity to visit the pathology lab & microbiology lab.

In the afternoon session we discussed about the preparations to be made for the Coastal Environmental Study tour. It was really an wonderful opportunity for us at this early period of our student life to know about health and various treatment facilities available at our own district, We left the college campus at 16, 30 hours with a sense of gratitude and thanks to our medical doctors and Mr. Velaian for providing this golden moments through KAP.
