

KUMARI ARIVIAI PERAVAI

REPORT OF THE SECOND MEETING OF THE RIVER TEAM

T.V.Abigail Seneega.

**Leader
RIVER TEAM**

The second meeting of the river team was held at Tamirabarani River near Mankad. The meeting began at 9.30am. The introductory speech was given by Mr.Velaian organizer of Kumari Arivial Peravai. He advised all the Young Scientists to keep contact with all the team members, guide teachers, consultants and scientists. He also provided more information about some of the Young Scientists from previous batches.. He also advised us to develop our speaking skill. Next Scientist Murugan gave us a thought provoking speech. He said that life is not success alone but it is like a journey .So we must enjoy life during the

voyage. He advised us always to think "I can" .At 10 am Dr.Bennet Singh, Joe Prakash, and Mr.James Wilson also joined with us. After the meeting we went out to discuss about our project. On the way we saw many medicinal plants. Then we sat under a tree and discussed about the project that we had prepared. We were given certain suggestions to modify our projects. During the discussion tea was provided to all. Then we went to visit the nearby temple. On the way to temple we happened to cross a hill. Getting down from the hill was a thrilling experience for us. Near the temple there was a river where we learned about river bed, river erosion, river formation etc. After enjoying the temple and its scenery, we again climbed up the hill. The scenery seen from the top of the hill was excellent, charming and mind blowing. Then we came down and had a break. The meeting was very informative. The speeches we heard were very useful to us. More over we got an opportunity to visit an historical Place in Kanyakumari District. The meeting came to an end at 1pm with the vote of thanks by Abigail Seneega .
