

Dear Sir/Madam,

Kumari Arivial Peravai is a voluntary group doing service in the field of science and Technology in Kanyakumari District. The main aim is to create scientific awareness among the student community and bring out the hidden talents in the young ones. For this we organise many programmes every year.

Last year, we had conducted young scientist programme on "Water and Life"

This year we have chosen the theme 'Energy and Environmental Challenges'. The awareness on this will be conveyed through various programmes like Science Exhibitions, Seminars, Scientists and Students Interactions, Science Competitions, Young Scientists Camps, Environmental Field Studies etc.

51 students are selected as young scientists and 10 guide teachers are also selected for this year programme. These 51 students are divided into 5 groups. Each group is guided by a scientist, Medical Doctor, Guide Teacher and Coordinator who voluntarily help the students.

As part of this programme we wish to conduct a **Scientists and Students Interaction on Present and Future of Science** on **25/2/2012 During the National Science day**. In association with NVKSD Highersecondary School, Attoor.

The Students and teachers will be participating. We earnestly request your co-operation in this noble venture.

Yours sincerely

Mullanchery. M.VELAIAN
